PROFESSIONAL SUMMARY

I am a Computer Science undergraduate at East West University with hands-on research and development experience in AI/ML, NLP, and graph neural networks. Skilled in Python, PyTorch, and deep learning frameworks, with experience building scalable full-stack systems and production-ready intelligent solutions.

EDUCATION

B.Sc. in Computer Science and Engineering

East West University, Dhaka

CGPA: 3.49/4.0

Feb 2022 – Apr 2026

Higher Secondary Certificate (HSC), BAF Shaheen College Dhaka

Group: Science

GPA: 5.00/5.00

Completed: 2020

Secondary School Certificate (SSC), Devagram Pilot High School

Group: Science

GPA: 5.00/5.00

Completed: 2018

EXPERIENCE

Brain Station 23

Trainee

Dhaka, Bangladesh

July 2026 – Present

- Build and optimize visualizations and ETL/ELT pipelines to process, clean, and transform large-scale datasets.
- Perform Exploratory Data Analysis (EDA) using Python (Pandas, NumPy) and SQL to extract actionable business insights.
- Design interactive dashboards and data visualizations to translate complex analytical findings for cross-functional teams.
- Write optimized SQL queries to query, aggregate, and validate high-volume operational data.

RESEARCH & PUBLICATIONS

1. Towards Personalized Bangla Book Recommendation: A Multi-Entity Graph Dataset

2025

Md. Anik Chowdhury et al. [\[Preprint\]](#)

Supervisor: Dr. Nafis Sadeq, East West University

2. Explainable ML Forecasts of Building-Energy Demand from Weather Signals

2024

Co-author. Published at *IEEE SmartGridComm 2024* [\[Conference Paper\]](#)

Supervisor: Dr. Mohammad Rifat Ahmmad Rashid, East West University

TECHNICAL PROJECTS

SQL Data Warehouse & Analytics Pipeline

Personal Project, 2026

[\[GitHub\]](#) | *SQL Server, SSIS, SQL Server Agent, Power BI*

- Designed and built a Medallion-architecture (Bronze/Silver/Gold) data warehouse in SQL Server, ingesting and integrating ERP and CRM source data via T-SQL ETL scripts.
- Built a parallel SSIS ETL pipeline in Visual Studio with 12 packages (6 Bronze, 6 Silver) orchestrated through master control-flow packages for automated Bronze-to-Silver loading.
- Automated the end-to-end pipeline using SQL Server Agent job scheduling for recurring, hands-off data refreshes.
- Developed a 4-page Power BI dashboard (Sales Overview, Product Performance, Customer Demographics, Supply Chain & Operations) delivering business-ready reporting on top of the Gold layer.

RokomariBG: Bangla Book Recommendation

Undergraduate Research, 2025

[\[GitHub\]](#) | *Python, PyTorch, GNNs, NLP*

- Developed the first large-scale dataset for Bangla book recommendations, addressing low-resource language gaps.
- Processed 127K+ books and 209K+ reviews into a heterogeneous knowledge graph with 8 relation types.
- Enables academic research in low-resource NLP, graph-based recommendation, and cross-lingual transfer learning.

Object Detection with SSL & Semi-Supervised Learning

Research Project, 2024

[\[GitHub\]](#) | *PyTorch, YOLO, DINO, BYOL*

- Built a fish fry detection system using YOLOv10-v12 backbones for aquaculture health assessment.
- Integrated Self-Supervised Learning (BYOL, DINO) to improve feature representation on unlabeled data.
- Utilized the STAC framework to maximize generalization with limited labeled datasets.

- Developed a secure banking platform with account management, funds transfer, and bill payment.
- Built a PHP/MySQL backend using encrypted communication and session-based authentication.

TECHNICAL SKILLS

Languages: Python, C, C++, Java, JavaScript, HTML/CSS, SQL
Frameworks/Libraries: MERN Stack (MongoDB, Express.js, React.js, Node.js), PyTorch, TensorFlow, scikit-learn, NumPy, Pandas
ML/AI: Deep Learning, GNNs, SSL, NLP, Computer Vision, Recommendation Systems
Data Engineering & BI: SQL Server, SSIS, SQL Server Agent, Power BI, ETL/ELT Pipelines
Developer Tools: Git, GitHub, VS Code, Google Colab, Kaggle, Linux, XAMPP
Databases: MySQL, MongoDB

RELEVANT COURSEWORK

Object-Oriented Programming (Java), Data Structures, Algorithms, Artificial Intelligence, Machine Learning, Database Management Systems, Software Engineering, QA, System Analysis, Computer Architecture, Image Processing, Web Programming.

SEMINARS, CONFERENCES & AWARDS

- **Merit Scholarship** (2022–2025): Maintained a CGPA of 3.50+ for multiple semesters, receiving a four-year tuition fee waiver – East West University.

LANGUAGES

Bangla: Native Speaker **English:** Fluent
